## Personal Statement

A highly motivated and hardworking Web developer graduate looking to resume my professional career as a Frontend Developer to use and further develop my skills and knowledge in a practical way. My career goal is to work in an environment where growth and ambitions of both the organization and individual is duly recognized to strike a balance . An environment where my potential can be best utilized for the growth of the organization and community at large.

## Highlighted Software Applications

This is one of the projects that have been able to come up with using my skills .

### 1.Neighbourhood-Frontend Application

URL:<https://github.com/AokoMercyline/Neighbourhood>

This is a web application that allows users to be in the loop about everything happening in their neighborhood.

- The project is deployed via Heroku
- Users are able to interact with their neighborhoods
- It met all the objectives
- Featured on my publication

### Technologies Used

Python3.8

Django3.2.1

Postgresql for maintaining database

Heroku (Hosting the site live)

Challenges faced during the application-Time were quite limited but i sacrificed the little i had to complete the project in time.

### 2.News-API-Frontend and Backend Application

URL:<https://github.com/AokoMercyline/News-API>

News Api is a website application that is meant for busy individual to catch up with affairs currently happening worldwide,news are categorizes according to their sources and users are able to preview the news articles.

- The project is hosted live via heroku

- The user is able to view the headlines of different movies according to their categories and also go ahead and read more about the news in details.

#### Technologies Used
